- Awards: Dean's List; UNC PIT Journal Pitch (1st Place); Board of Education Resolution of Honor (1 of 7,000+ students)
- Activities: TechX (10% acceptance rate), Scholars of Finance, Carolina Global Launch (University of Stirling, Scotland)

WORK EXPERIENCE

Capital One

McLean, VA

Incoming Summer Business Analyst

June 2026 – August 2026

- Selected for the 2026 Analyst Early Internship Program (AEIP) to develop business analytics and product strategy skills
- Placement within the Financial Services division, covering business analytics functions spanning banking and credit risk
- Equipped with SQL and other tools to support and analyze large-scale customer and business datasets across the division

Star Course Holdings

Charlotte, NC

Private Equity Intern

April 2025 – January 2026

- Sourced and qualified 300+ private NC businesses yielding industry-leading response rates (10.2%; 2x industry average)
- Authored 3+ investment memos for deals totaling \$25M+ in enterprise value, advancing multiple targets to due diligence
- Scaled daily lead outreach by 2.25x (20 to 45+ leads/day) by developing automated LLM-powered qualification systems
- Conducted due diligence on 10+ healthcare, SaaS, and B2B targets (\$5M-25M revenue) including analysis and modeling
- Built and stress-tested financial models (DCF, LBO, CCA) to forecast IRR, EBITDA, and cash flow for PE acquisitions

Swing Phi

Wilmington, DE

Software Engineer Intern

April 2025 – August 2025

- Engineered real-time data pipelines integrating 5+ financial APIs (Polygon, Alpha Vantage, SEC) for equities and crypto
- Developed and engineered 20 internal API endpoints for equity trading platforms, serving as the lead backend developer
- Reduced API latency by 35% (250ms to 160ms avg) across 7 core routes through database query and logic optimization
- Decreased data processing time by 65% by enhancing core business logic and implementing Django-based data pipelines
- Deployed OpenAI and Anthropic powered AI models on Microsoft Azure to parse SEC filings and create trade decisions

LEADERSHIP AND INVOLVEMENT

Vektra

Chapel Hill, NC

Co-Founder

March 2026 – Present

- Co-founded Vektra, an AI supply chain platform for mid-market manufacturers across the \$11.6B market at 17% CAGR
- Designed AI agents to monitor news and geopolitical signals, automatically preventing disruptions and ranking solutions
- Building MVP for September 2026 launch; targeting 25% logistics cost reductions through agentic disruption prevention

Visual Computing and Augmented Intelligence Lab

Chapel Hill, NC

Research Assistant

January 2025 – Present

- Architected an efficient algebraic algorithm optimizing optical lens parameters, bypassing heavy ray tracing alternatives
- Contributed commercialization of the algorithm into enterprise frameworks tailored for specialized AI detection projects
- Building ML pipelines using LangChain and PyTorch to process visual computing datasets for ongoing research projects

VisuAlize

Chapel Hill, NC

Lead Developer

February 2025 – December 2025

- Built an AI-powered equity analysis and company valuation platform processing 100+ user requests and queries per day
- Automated modeling by parsing SEC 10-K filings via OpenAI APIs, generating valuations (DCF) for 100+ corporations
- Leveraged Supabase to manage and authenticate 50+ users, reinforcing security through two factor authentication (2FA)
- Engineered interactive charts and sentiment-based word clouds through D3.js, rendering complex financial visualizations
